

## Bank Statement

One of the document that we periodically receive aside from [billing statements](#) for our utilities like water and electricity is the bank statement. These are documents provided in connection with any of our accounts in a financial institution. I could probably say you are all familiar with this along with medical and [income statements](#).

As humans, one of our priorities is our security. We want to feel safe and free from any threats to our lives including with our finances. We want to guard our hard-earned possessions because after all, we gave all of our efforts to obtain them. One of the ways to do this is securing a bank statement from the [financial statement](#) institution where you belong to keep track of all your transactions.

## What Is a Bank Statement?

A bank statement is defined by Wikipedia as “a summary of financial transactions which have occurred over a given period on a bank account held by a person or [business statement](#) with a financial institution.”

It consists of transactions like debit and credit, withdrawals, and deposits. Bank statements are typically sent through mail in its traditionally paper format. Some people still choose this method so they can literally check and see what activities have been made through their bank accounts. However, due to emergence of new technologies, bank statements have evolved to become paperless which are now sent through emails and other digital methods of sending them.

## What Are the Steps Necessary to Reconcile a Bank Statement?

There are times when we cannot avoid but wonder and ask some of the items or transactions written on our bank [opening statements](#). Some even become too emotional upon seeing unfamiliar transactions. We could understand why such behaviors could be observed.

Money is an important factor in our day-to-day activities. It buys the food we eat, gets us to transport from one place to another, and get the things that could make us happy. However, when these problems occur, the best thing to do is to contact your bank. You can either go to your nearest branch or call their customer care hotline and ask for some clarifications and explanations of such occurrences.
